# Spectrum Media Studio Ingest

FEATURE RICH INGEST SOLUTION FOR SPECTRUM PRODUCTS

# Spectrum Media Studio Ingest offers Broadcasters complete control of all ingest requirements within their facility. Users have access to instant records, scheduled records, recurring records and group recordings.

Spectrum Media Studio Ingest is a server application with a web-based user interface that allows operators to manage all the ingest requirements within a facility that uses Spectrum Video Servers. Operators simply select an input source, set the times and dates and Spectrum Media Studio Ingest will manage the resources intelligently Features include,

- Web-based Clients
- Source-based management
- Rest API for metadata integration with MAM systems.
- Ability to view video source while recording

- Router Control\*
- Automatic resource allocation
- Studio, MCR, News workflows
- User-based roles.

\*Contact Harmonic for list of supported routers, Spectrum hardware and software

HIGHLIGHTS

• Full featured ingest solution for Spectrum servers
